

**Dr B.M. Prasanna**  
Director, CGIAR Research Program (CRP) MAIZE  
& Global Maize Program, CIMMYT

November 21, 2017

## CERTIFICATE

This is to certify that the below listed CIMMYT-derived pre-commercial maize hybrids have been allocated to

### Lall Seeds, Odisha, India

for registration, commercial release, further seed scale-up and delivery in the specified target countries.

S. No.	CIMMYT Hybrid Code	CIMMYT VIN	Target Country (Area within a Country, if applicable)	Date of allocation by CIMMYT
1	CAH153	CIM17MHS02	India (Odisha)	07 Nov 2017

**\*Note:** The requirements for display of CIMMYT-provided unique **Varietal Identification Number (VIN)** invariably on every commercial seed bag (in case the allocated hybrid is released and/or commercialized in the target country/countries for which it is allocated by CIMMYT to the partner institution) are reflected in CIMMYT Maize Commercialization License Agreement template. The recipient institution must sign the License Agreement and must rigorously adhere to the terms and conditions for the product allocation to be effective.

The formal licensing agreement through a specific Memorandum of Agreement (MOA), along with Standard Material Transfer Agreement (SMTA) for germplasm exchange, will follow.
